Being a parent can be very rewarding, but it can also be very challenging. Because your child is always growing, the information you need to know about parenting and child development changes constantly, too. Learning what behaviors are appropriate for your child’s age and how to handle them can help you better respond to your child.

“WHERE CAN I LEARN MORE ABOUT MY CHILD’S DEVELOPMENT?”

HANDLING YOUR CHILD'S CHALLENGING BEHAVIORS AT EVERY AGE
Parenting is one of the hardest jobs in the world. While raising children can bring a lot of joy and love into our lives, it’s also a lot of work and responsibility to prepare children to be independent and capable adults. Parenting is particularly difficult because our children are constantly changing. Knowing what to expect helps us understand that many challenging behaviors are just a normal part of growing up. As our children grow, our expectations and the way we parent should change as well. This guide can make parenting a little easier by helping you learn more about how to connect with your child and handle challenging behaviors at every age. The guide, which was produced by Yolo County Children’s Alliance as a project of the Yolo County Child Abuse Prevention Council, is available in English, Spanish, and Russian.

WEATHERING THE STORMS: A GUIDE TO HEALTHY EXPRESSIONS FOR PARENTS AND CHILDREN
This guide from Yolo County Children’s Alliance can help you and your child weather emotional storms. By modeling and teaching your child the ideas and skills in this guide, you can help your child manage emotions better. Practicing these skills yourself can improve communication with your child, partner, relatives, coworkers, and friends. Learning to express your emotions in a healthier way can help you be calmer and more in control of your actions. The guide covers identifying emotions and the power of empathy, using calming activities when emotions are building, weathering emotional storms by waiting before talking, responding to emotions in the calm after the storm, and learning to predict future storms. Available in English, Spanish, and Russian.

NURTURING CHILDREN DURING TIMES OF STRESS: A GUIDE TO HELP CHILDREN BLOOM
We all feel stressed sometimes. Some stress is a normal, healthy part of life. It can help us stay safe, try harder, or make us grow stronger. However, intense stress that doesn’t go away can be too much to handle without help. As a parent or caregiver, there are ways you can help your child handle intense stress. Much like a seed that overcomes a difficult environment to grow and flower, you and your child can bloom even in challenging times. This guide has nurturing tips and resources that can protect you and your child from the effects of intense stress. These ideas will also help you connect with your child. This guide is for parents and caregivers who want to learn how to bloom even in stressful times while helping children do the same! The guide, which was produced by Yolo County Children’s Alliance as a project of the Yolo County Child Abuse Prevention Council, is available in English, Spanish, and Russian.
