Established in 2002, the Yolo County Children’s Alliance (YCCA) is a 501(c)(3) organization and an inter-agency collaborative that coordinates needed family support services, convenes child and family advocates to solve community problems, and gathers and disseminates local information about the needs and the well-being of Yolo County families.

YCCA supports families to protect and empower our children. We help families, particularly non-English speaking families, access services, learn valuable parenting skills, and find support. We do this through programs which focus on the following areas:

1. community support
2. family strengthening
3. community collaboration & advocacy.
